

ColorLand®

For harmony of color
and shape

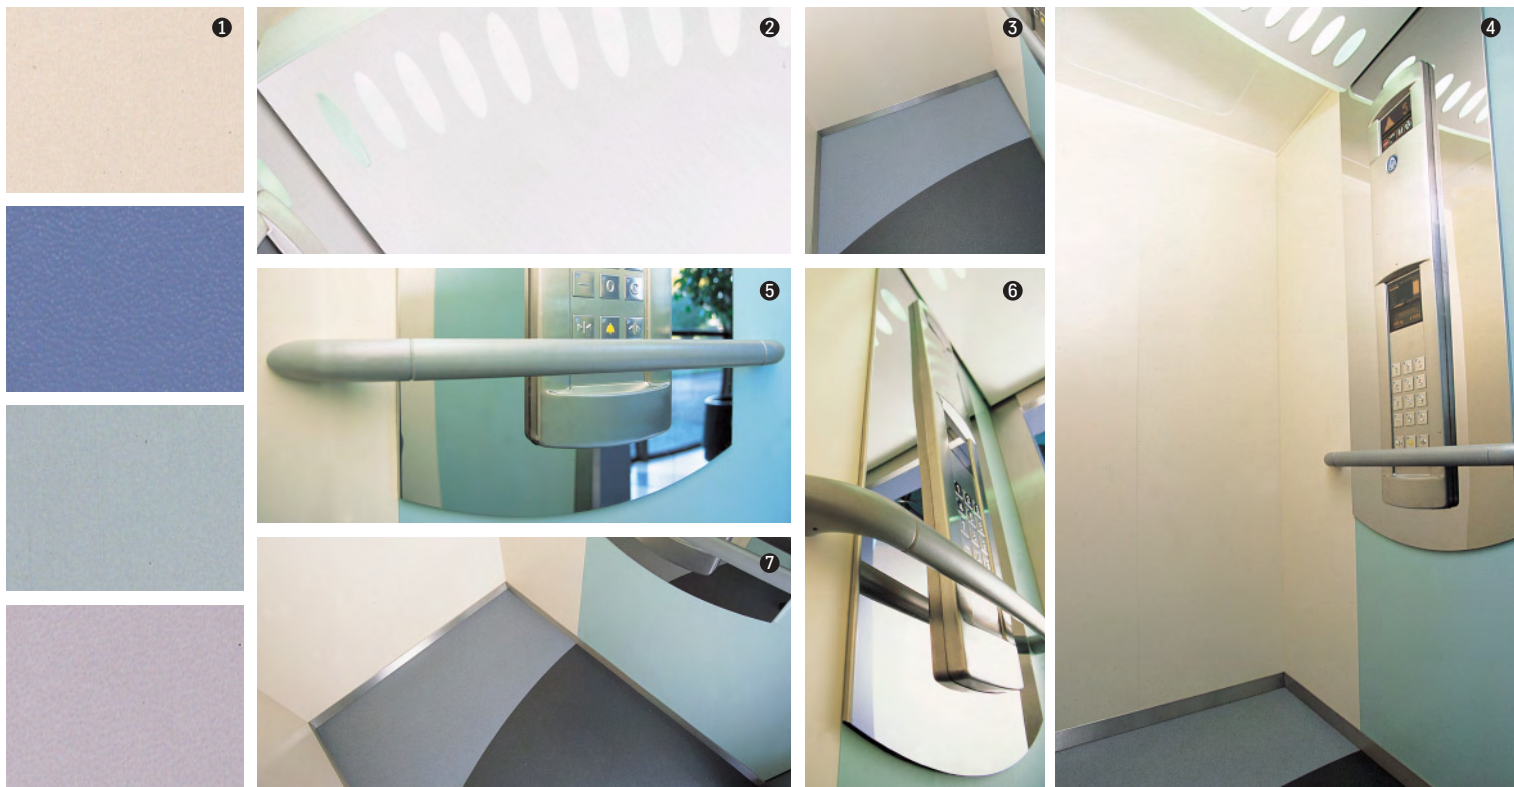

ThyssenKrupp Elevator France

ThyssenKrupp

Nothing short of bicolor and so easy to live with ! ColorLand tempers its simplicity with a little touch of color fantasy... for the pleasure of users of both residential buildings and office blocks.
ColorLand: three combinations of pastel colors are very pleasing !

1 Material and colors

“Sand yellow” plasticized sheet metal.
“Pastel blue” plasticized sheet metal.
“Pastel green” plasticized sheet metal.
“Light gray” plasticized sheet metal.

2 Luminous ceiling

Flat in single section.
Sheet metal painted in white epoxy.
“Lexan” band lighting and drop-shaped lighting assuring 100 lux evenly distributed at floor level. Round cut-out on front access face for lighting between car and landing in which an emergency lighting unit can be fitted as option.

3 Kick plates

On end and side walls 60 mm high in anodized aluminium.

4 Wall cladding

In “sand yellow” plasticized sheet metal for end of car.
In “sand yellow” plasticized sheet metal combined with “pastel blue”, “pastel green” or “light gray” for the side walls.

Mirror

In mirror polished stainless steel around the COP.

Panels and access face

220 stain finish stainless steel. Engraved “elephant hide” as option.

5 Handrail
